They're soft and springy, they neither have a scent nor body hair, so they're easy to handle!

Human children are the best!

My friend was saying that, so

So I went straight to the human ranch and purchased one.

FUN DISSECTION

First: CUT THE THROAT AND SUSPEND THE BODY TO DRAIN THE BLOOD.

If you want it to taste good this is absolutely necessary!

Second: DISPOSE OF THE INNARDS.

Take them out.

Be careful they don't break!!

Third: PEEL OFF THE SKIN AND FUR.

Keep going you're almost there!!

Fourth: CUT IT INTO PARTS.

It sure looks delicious now, right!!

I have to eat some vegetables too.
In the meantime, I'll make something to go with you.
